# SALO

The Hidden Gem of Coastal Finland | 2026

**A JOURNEY OF FLAVOURS  
THROUGH THE COUNTRYSIDE**

**GUIDE MAP  
OF LOCAL FOOD**

**CHARMING  
IRONWORKS  
VILLAGES**

**FASCINATING  
EVENTS**

Salo offers its visitors a wide range of culture, countryside landscapes and coastline, where you can gaze into the horizon. We'll help you find your favourites!

## For gourmets

The local food map takes you to shops and local treats along your route. See more p. 42.

## Finding nature

There are several hiking trails in Salo that you can enjoy with your whole family. See tips p. 30.

# VisitSalo.fi

## SALON TOURIST INFORMATION

info@visitsalo.fi  
VisitSalo.fi

Find our info point during summer at the Salo Market-place and the Mathildedal Ironworks Village.

## 10 Events, culture and the centre of Salo

Salo is known for its summertime evening markets, but we have events all year round. Check out our top picks for culture and events and what to do in the city centre.

## 22 Charming ironworks villages

Our idyllic ironworks villages, Mathildedal, Teijo and Kirjakkala, are interesting attractions of cultural history, combining history, art and craftsmanship.

## 30 Nature, hiking and activities

There are many great hiking destinations in our area where you can explore our rich cultural history and versatile nature. Have you visited Teijo National Park yet?

## 34 Maritime Särkisalo

The sea is strongly present in the southernmost part of Salo. Our Särkisalo invites you to a day trip around the islands or just to enjoy the atmosphere by the sea.

## 38 Local food and countryside

Salo is a treasure trove of local food and one of the largest food producers in Finland. We have put together a map of farms and shops selling local food.

## 44 Historical Halikko

Halikko offers a generous serving of culture, ancient history and modern-day delights from restaurant delicacies to design.

## 48 Celebrations and meetings

For large and small gatherings, we have old noble manors, adjustable venues and high-quality restaurant services.

## 50 Become a resident

The cost of living is clearly more affordable in Salo than in the Helsinki metropolitan area, Turku or Tampere. Why not trade an expensive life for a rich one?

# Discover

## Mathildedal village is a place of authentic encounters

**IN THE IDYLIC MATHILDEDAL** Ironworks Village, you can find the Hotel & Café Mathildedal, a beautifully aged, small boutique-style hotel and café by the sea.

Entrepreneur **Krista Gustafsson** wanted to create a place where the authenticity of the historical milieu of the ironworks village comes together with genuine personalities.

“With us, people feel truly seen and well cared for. We look after our customers personally and we bake our goods by ourselves,” she says.

Although the number of tourists in Mathildedal and its popularity have reached a new high in the 2000s, the area is still a communal and sympathetic little village.

**CHARACTERISED AS AN ARTISAN VILLAGE**, Mathildedal is known for its atmosphere and history, but the surrounding nature and the many possible activities appeal to tourists. “It is quite unique that you can take a short walk of less than a kilometre from where you are staying and find yourself in a national park. In addition to hiking, there are great opportunities for mountain biking, canoeing, tennis and padel”.

### **KRISTA GUSTAFSSON**

loves people, creates authentic encounters in the Mathildedal Ironworks Village.

## 3x tips!

### **TEIJO NATIONAL PARK IN THE SPRING**

Teijo is beautiful all year round, but early spring is my favourite time there. I love watching how nature starts to become green again.

### **PUMPKINS FOR THE HALLOWEEN SPIRIT**

The Pumpkin Weeks in Salo bring joy during the dark autumn season. The Pumpkin Park is a great and exceptional attraction.

### **CHRISTMAS MARKET IN IRONWORKS VILLAGES**

Christmas feels magical in the historic ironworks villages. The Christmas market fairs at Mathildedal and Teijo bring together local craftsmen and food producers.

## ALEXANDER AMINOFF

the estate owner wanted to open Wiurila Manor for everyone.

## Welcome to the manor

**WIURILA MANOR'S** current owner, **Alexander Aminoff**, represents the ninth generation of manor owners after he inherited Wiurila from his mother in 2024.

As an entrepreneur, it was immediately clear to him that the idyllic environment of Wiurila should be made accessible to as many people as possible and easier to get to.

"I always emphasise that this manor is part of the living history. It is not just a prop or a museum where time has stopped around the 19th century. This is a real, live manor".

**IN ADDITION TO HISTORIC BUILDINGS**, Wiurila offers many things to see and experience for tourists. You can stay in the charming 4-room guesthouse and enjoy tasty local food in the Sigrid restaurant.

"We also have venues for rent, an 18-hole golf course known for its beautiful landscapes, a home museum and a horse carriage museum. In the summer, Wiurila has extensive exhibitions of contemporary art.

The concept of the restaurant is deliciously simple. Gorgeous antique tableware and beautiful dishes of simple food made with local ingredients.

## 3x tips!

### ART IN SALO ART MUSEUM

I have been strongly impressed by Salo Veturitali and its well-curated, high-quality exhibitions. I recommend it!

### TRÖMPERIN KESTIKIEVARI INN

A cottage preserved mostly in its original appearance, the oldest part of which dates from the 18th century. Open in the summer, together with a café.

### HALIKKO CHURCH AND MUSEUM

The beautiful medieval stone church and the nearby museum are true hidden gems. Both are also strongly connected to the history of Wiurila Manor.

### HILKKA KARIMO

In Särkisalo. The magical landscape of the archipelago is her home, bringing joy all year round.

## Experience the beauty of the Archipelago Sea in Särkisalo

**IN SALO, TRAVELLERS** can get from one milieu to another in no time. If you want, you can spend time in urban surroundings or quickly retreat to a national park to enjoy the nature or the peace of the archipelago.

Särkisalo represents maritime Salo: it is a beautiful region of islands in southern Salo of approximately 700 residents. In the past centuries, people there made their living from fishing, seafaring and a limestone mining.

Ylöstalo Farm is one of the tourism companies in Särkisalo. They rent out cottages and boats and run the popular Nixor restaurant with a terrace in the summer. "People who want to experience the landscapes of the archipelago and the silence and peace of nature come here".

**THE FAMOUS FISHING WATERS** attract fishers and the restaurants and beautiful archipelago landscapes attract tourists. They also have venues for meetings and parties.

"Many of our customers give a special shout out to the soundscape here. For example, listening to the sounds of the sea and the birds in the early summer is always a great experience".

## 3x tips!

### GO ON AN ADVENTURE BY BIKE

When pedalling around the small island villages, you will feel like you have entered a different country. You could cycle to islands Ulkoluoto or Pettu in Särkisalo by riding an electric bike, for example.

### NIKSAARI SAUNA

The city-owned sauna has a pier that you can also use for winter swimming in the sea.

### TAKE A BOAT TRIP

From the sea, you can look at things from a different perspective.

**MINNA POHJOLA**

is dedicated to local food. Quality and locality are close to her heart.

## Pohjola Farm – an oasis of flavours led by three sisters

**LOCATED IN THE BEAUTIFUL HERITAGE LANDSCAPE OF KISKO**, Pohjola Farm is much more than a traditional farm. It's a story about roots, sisterhood and passion for clean food. The farm is run by the third-generation sisters **Minna, Nina Selin and Päivi Pohjola**, who have helped the farm that was established by Karelian resettlers after the Second World War turn into a versatile tourist destination.

"For us, it's a matter of honour to produce only the best quality. You can sell poor quality only once, whilst customers return year after year to get top quality," says the farm's business owner, Minna Pohjola.

**STRAWBERRIES ARE THE HEARTBEAT OF THE FARM**, but its selection has expanded into inventive delicacies. You can buy goods made from the farm's own crops in the farm shop: pear and vanilla jam, dill oil, mulled wines and the farm's new range of oats products.

Pohjola Farm changes with seasons. In the summer, the farm indulges its visitors with a summer café, second hand shop and popular afternoon tea events. In the winter season, the farm is dressed in winter decorations and the atmospheric Christmas shop opens its doors five weekends before Christmas Eve.

## 3x tips!

**LOCAL FOOD MAP**

Definitely number one! The Local food map of Salo is a great concept that lists all producers in the region.

**SAUNAS AND ICE SWIMMING**

There are several great places for sauna and ice swimming for both locals and tourists. For example, here in Kisko, Laineranta is like the village's shared living room.

**PUMPKIN WEEKS**

The event organised during the dark and rainy autumn season is an excellent way to brighten up.

## Events = life

**IN SALO, EVENTS** are not just entertainment, but the heart of the city. **Suvi Aarnio**, cultural producer, describes Salo's event field as versatile and surprising. "We have everything from major public events to small, atmospheric village parties. For example, the nationally renowned summer evening market is a phenomenon that attracts people from even further away. It is a free event that is open to everyone, with a top artist's concert each night," Aarnio says.

**SALO'S STRENGTH** lies in its sense of community. Events, such as the Pumpkin Weeks that bring light to the dark autumn season, are created with local initiative and enthusiasm, and they have become the pride of the entire city.

"It's great to see people commit to the events. Here, they are a lifestyle bringing together different generations and creating a kind of team spirit".

For friends of culture and sports, Salo offers experiences all year round. Children's Saturdays, Sanojen Salo poetry festival and versatile sports events ensure that there is something for everyone.

### **SUVI AARNIO**

praises the collective spirit of the people in Salo. Salo is a city where you will always find something to do.

## 3x tips!

### **EVENING MARKET**

Absolutely the best thing in the summer. The atmosphere is unique and you have to experience it yourself. You rarely get to enjoy concerts of popular artists for free.

### **CULTURAL GUIDES**

Are you finding it difficult to go to events alone? Invite a cultural guide to join you.

Learn more about the free service at [salo.fi/kulttuuriluotsi](http://salo.fi/kulttuuriluotsi).

### **VILLAGE EVENTS**

Do not hesitate to explore outside the city centre. For example, the Humpparalli in Kuusjoki, art exhibitions in Wiurila Manor or Christmas events in Mathildedal offer a truly authentic feel and local colour.

## Enjoy nature easily in Salo

**IF NATURE IN SALO** were to be described with one word, it would be versatile.

"We have the Teijo National Park and the Hyyppäreesker, which is a hilly part of the Salpausselkä ridge system. There are also different waterways and the surrounding sea," says **Aku Laaksonen**, Head of Nature Exercise at the City of Salo.

Laaksonen encourages everyone to go out and get to know nature on a low threshold. The clearly marked and various routes make it easy.

"There are nice, smaller sites close to the urban area that are easy to reach. On the other hand, there are also longer and more challenging route networks".

**IN ADDITION TO HIKERS** there are routes for cross-country skiers and cyclists. The popular Coastal Route takes cyclists along the coastline in the landscapes of Salo, Kimitoön, Hanko and Raseborg.

"It has been described as a pleasant and relatively safe route to cycle, as the roads do not get too congested. There are also a good selection of services along the way".

### **AKU LAAKSONEN**

encourages families in particular: go out to nature together more often.

## 3x tips!

### **VERSATILE TRAILS**

You can find many trails of different lengths for hiking, cycling and canoeing on the websites of the City of Salo and VisitSalo.

### **BIRDWATCHER'S DREAM**

The Salo region has some excellent bird wetlands, such as the areas near Halikonlahti Bay and Viurilanlahti Bay.

### **DISC GOLF COURSES**

Salo has an exceptionally high number of disc golf courses that are quite close to each other, so you could visit even more than one in a day.

## Events in Salo

Salo boasts a delightfully versatile range of events and culture. Salo Marketplace is the centre of the city, serving not only as a meeting and shopping place, but also as a stage for numerous events.

**IN THE CENTRE OF SALO,** within a short walking distance from the train station, you can find the Salo Marketplace, Salo Electronics Museum, Art Museum Veturitalli, the Plaza shopping centre and several unique brick-and-mortar shops and restaurants known for their excellent service. For those arriving by car, the city offers free parking all year round.

Explore museums and their changing art exhibitions and fascinating historical phenomena, enjoy the magic of the theatre, wonder at circus performances, fall in love with cultural films and join a sing-along. The city's successful sports teams and events hosted by local sports clubs

in the Salo Sports Park offer excitement and experiences for sports enthusiasts.

The Salo Autumn Market and the exclusive SaloJazz Festival are the perfect combination of a market atmosphere and thrilling music at the turn of September and October. The Pumpkin Weeks in October, on the other hand, are a feel-good event for people of all ages.

As we turn to winter, the festive Christmas markets and events are an irreplaceable Christmas tradition for many visitors. For the coolest visitors, we strongly recommend the Ice Swimming Rush Experience, which invites you to try winter swimming around Salo.

**You can find  
more events at  
[VisitSalo.fi](https://www.visit-salo.fi)**

## Salo marketplace and evening market

### EXPERIENCE & SEE

Every Thursday in the summer, you can go to the evening market to enjoy a market atmosphere, make great second hand market discoveries and listen to concerts of the most popular artists in Finland, free of charge. [Saloniltatori.fi](http://Saloniltatori.fi)

### Antonio

A relaxed restaurant with a warm and welcoming atmosphere for everyone who enjoys good food and pleasant company. Our menu introduces pieces of Mexican cuisine combined with traditional and fresh Finnish flavours: Fin-Mex at its best!

Juicy dishes from our grill are made according to your taste: soft to melt in your mouth or pleasantly spicy. Our burgers and platters are made with love.

You'll always feel welcome at Antonio!

Vilhonkatu 8, 24100 Salo

### Rikala Bar&Grill

Our kitchen serves genuine flavours in a casual, stylish setting in which light and nature are part of the experience. Even though the environment is lovely, our focus is on making straightforward food from the best Finnish ingredients. We do not try to be fancy – the food on our plates highlights genuine flavours and lets them steal the show.

Our meals are created with love, and handmade from beginning to end. Come and enjoy yourself, and stay a bit longer – alone, with a partner or with a group of friends. Service is a matter of honour for us. You might hear some bad jokes, but authenticity is our core value.

## Mathildedal ironworks village

The Mathildedal village next to Teijo National Park radiates an upbeat village atmosphere: red ochre houses, ironworks buildings, history, shops, unique delicacies, artisan products unlike any other.

**MATHILDEDAL IRONWORKS** is the youngest of the three ironworks in the region – it was founded in 1852. The charismatic 19th-century ironworks milieu houses a modern village community with 130 residents, many of whom are entrepreneurs.

The village is located between the clear Lake Matildanjärvi and the sea. Nature has been a strong part of the village throughout its history, and the stream flowing from Lake Matildanjärvi has helped the village to develop. In the 1880s, the stream was harnessed for electricity production using water wheels. The village is surrounded by beautiful forests that invite you for a hike and to enjoy the peace and quiet of nature.

In the summer, Mathildedal's population multiplies when holidaymakers arrive to celebrate the summer. The vibrant village hosts numerous concerts, gigs, art exhibitions, theatre performances, events and a range of festivities throughout the year.

The old factory buildings, sincere and heartfelt service and the lush green surroundings offer experiences, tranquillity and rustic beauty for all senses. In Mathildedal, you can choose from a variety of accommodation options, including a cosy bed and breakfast, cabins and hotel luxury.

## Hotel & Café Mathildedal

Accommodation, café and meeting and party services in the historical ironworks area.

### Welcome to visit us!

THREE  
IRONWORKS  
VILLAGES BY THE  
TEIJO NATIONAL  
PARK

## Mathildedal's Keskuspuisto Park

Mathildedal's Keskuspuisto park is a place for the whole family in the middle of the idyllic Mathildedal ironworks village. Keskuspuisto has a unique Adventure mini-golf course. Adventure MiniGolf is suitable for people of all ages and offers a unique experience for everyone. The various ascents, descents, inclinations and spirals – not to mention the water elements – make playing a fun experience.

Keskuspuisto also has padel and tennis courts. Padel has become extremely popular in Europe, and its popularity is also soaring in Finland. It is perfect for people of all ages, regardless of your level of physical fitness. It is easy to learn, and the rules are fairly simple. Keskuspuisto's two tennis courts are made of high-quality materials and have the latest features. The surface is a new kind of sand-filled field that gets you closer to the experience of a clay court than any other artificial grass surface. After a game, you can enjoy beverages and ice cream at the Keskuspuisto Cafe Paviljonki.

See more at [www.mathildedalinkeskuspuisto.fi](http://www.mathildedalinkeskuspuisto.fi)  
We hope to see you soon!

25570 Teijo  
[info@meriteijo.fi](mailto:info@meriteijo.fi)  
[www.meriteijo.fi](http://www.meriteijo.fi)

## Teijo Ironworks Village

The immediate proximity of the sea, the 18th century manor milieu, the rolling, forested landscape of Teijo National Park with its rocks, lakes and rapids all come together to make Teijo a unique destination.

**IN 1686**, one of Finland's most significant ironworks rose on the eastern shore of Bay Halikonlahti, the grounds of old Teijo Manor. At that time, the provincial governor of Turku and Pori received permission from the king to build a blast furnace in the delta of River Teijonjoki.

Today, the idyllic Teijo Ironworks Village brilliantly combines diverse natural beauty with cultural heritage and a vibrant village community. The village offers versatile services as well as cultural activities and events.

Culturally and historically, the most significant regional sights are found right in the middle of the village: Teijo stone church, the old blast furnace of the ironworks and the rococo-style Teijo Manor, which is considered the most beautiful building of this architectural style in Finland. Just a short distance away lies the Lake Sahajärvi Nature Reserve that consists of the former parks and forests of the manor and is known as the pearl of the national park.

Teijo Ironworks Village offers much to see and experience for the entire family, all year round. Visit the art exhibitions of Teijon Masuuni, the handicrafts and Christmas markets, Teijo Midsummer festival or the Wanhanajan Markkinat – Old-timey Market.

## Teijon Masuuni – art, history and delicacies

The centre of art and handicrafts in the heart of an old ironworks village with a blast furnace founded in 1686. Location in the historical and maritime milieu right by the Teijo Manor and church and next to the Teijo National Park.

Art gallery, café, art and handicraft shop. Changing art exhibitions and events. Sweet and savoury pastries baked at the café by the stone wall of the old furnace. Office spaces for rent for entrepreneurs for various industries. Simple hostel-type accommodation at the Masuunin Majatalo Inn. We also welcome groups!

### Teijon Masuuni

Telakkatie 17, 25570 Teijo  
+358 (0)40 482 2224  
galleria@teijonmasuuni.fi  
www.teijonmasuuni.fi

## Restaurant Teijon Arkki

### Lunch, forest restaurant, bakery shop and party service

Delicious and versatile lunch and tasty bakery products.

You can order delicious food for your party through our catering service.

### Come and have a good time!

## Village House Punaportti

The Teijo Village Association's village house Punaportti is located on the seaside between Teijo and Mathildedal. During the summer season, there's sauna and swimming at the Village House on Mondays and Thursdays.

The building can also be rented for private parties.

Punaportintie 163  
25660 Mathildedal  
www.teijo.fi/kylatalo

## Teijo Village Sauna

Maintained by the Village Association of Teijo Area and open to all, the village sauna offers a gentle heat radiating from its thick stone walls. You can swim in the still water all year round. The sauna is also available for hire.

**The village sauna is open on Wednesdays, Fridays and Sundays.**

Telakkatie 31, 25770 Teijo  
www.teijo.fi/kylasauna

## Kirjakkala ironworks village

The history of Kirjakkala begins in 1686 when Finland's 11th ironworks was established in the village. The peaceful Kirjakkala is located by the trail networks of Teijo National Park, and by two lakes and the sea.

The old log buildings in **KIRJAKKALA IRONWORKS VILLAGE** are from the late 19th century and they have been restored to their original appearance. They are located in the middle of a stunning grove. The old, tall oak and linden trees provide shade on hot summer days, and the river flowing through the yard area creates a peaceful atmosphere. While strolling in the ironworks manor's hazel garden, you can almost smell the old ironmaster's cigar.

The ironworks is located right on the shore of Lake Hamarijärvi. You can admire the beautiful lake landscape sitting on a dam that is over 300 years old.

In Teijo National Park, beautiful trails, beaches and campfire sites await hikers, as well as forests full of mushrooms and berries in the autumn. Waterways, small bays and campfire sites provide an excellent environment for paddling and rowing – you can rent boats and kayaks in the summer.

The accommodation, party and conference venues are located in the old log houses in the same yard.

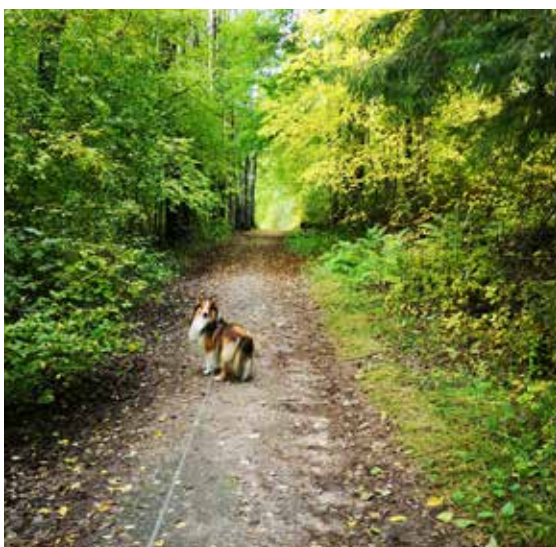

## Kirjakkala Ironworks Village / Extreme Fun

Have an active holiday or simply relax in the 18th and 19th century idyllic Kirjakkala ironworks village in Teijo National Park. Accommodation, conference and sauna services, an outdoor and canoe centre.

**We are located right by lake Hamarijärvi, next to hiking paths.**

Hamarijärventie 62, 25570 Teijo  
+358 (0)40 522 6325  
schneiderkai9@gmail.com  
www.ruukkikyla.fi

## Hiking tip for the Teijo National Park

### Onnelannummi trail 4 kilometres (1.5–2.5 hours)

The trail starts near Kirjakkala village. After walking for less than one kilometre, you will reach the Onnelannummi pine heath with its reservable camping area available for groups.

Signs then lead you on from Onnelannummi to the Hamarijärvi campfire site, which is a perfect place to take a break and admire the peace and quiet of Lake Hamarijärvi.

The beautiful trail goes close to the water, but the most spectacular scenery opens up from the viewpoint of Nikkakallio rock.

**For more hiking tips, see [visitsalo.fi/retkeily](https://visitsalo.fi/retkeily)**

## Nature, hiking and activities

Salo is known for the gorgeous Teijo National Park, and the region has many excellent hiking destinations where you can explore our cultural history and diverse nature. The hiking paths and nature surroundings are constantly developed, and accessibility has also been improved.

**NATURE LOVERS SHOULD** definitely visit the Teijo National Park. The area has a total of 50 kilometres of marked trails – even on a short trek, you can see stark rocks, lake scenery, peat and forest. The area also has campfire sites, lean-tos and fishing spots. At Teijo, you can be charmed by the natural peace and go hiking, paddling and swimming.

The ancient and cultural paths around Salo tell you about the diverse history of our region, highlighting the stories of the early settlers. Explore the life of birds and plants and the landscape, formed by the Ice Age, on our nature paths and around rapids.

Salo is an oasis for active people – for example, there are three golfing courses that meet international standards and have the longest golf seasons in Finland. Maritime Särkisalo is known for its good fishing waters, and Salo Sports Park is an oasis at the heart of the city. Our successful local sports teams and various events organised by active sports clubs in high-quality settings offer sport-related excitement and experiences in every season.

Here, you can enjoy sports and nature year-round on a bike, hike, skis, in a canoe, by swimming, riding horses or downhill driving with a mountain cross cart.

## Teijo National Park

Located right next to the Teijo Ironworks Villages, Teijo National Park provides an opportunity to experience the diverse Finnish nature. The landscapes range from peaty forests to mires, groves and cliffs. The mosaic of lakes and proximity to the sea are also part of Teijo's atmosphere.

Teijo offers up to 50 kilometres of well-marked hiking trails. Some of the trails have been built to be accessible for wheelchair users and pedestrians with prams. The most popular trail in the national park runs **around Lake Matildanjärvi** (5.5 km). The specialities of the **Lake Sahajärvi trail** (8.8 kilometres) are its two manually pulled ferries. **Totti nature trail** (1.3 km) and **Muurahaispolku trail** (1.3 km) are well-suited, comfortable nature trails for families with children.

We recommend starting the excursion from the Teijo Visitor Centre south of Lake Matildanjärvi. At the Visitor Centre, you can get tips and maps for your trip. The entrepreneur-led Visitor Centre also has a café and an equipment rental company. Matildanjärvi lake is a recreational and fishing destination. Rent a canoe, kayak, rowing boat or SUP board. The area also has trails for mountain bikers.

**See more destinations:** [www.visitsalo.fi/retkeily](http://www.visitsalo.fi/retkeily)

## Hiking Trail Salo–Lehmijärvi–Teijo National Park

**Length 21 km one way, 5–8 hours by hiking, 2–4 hours by mountain bike. Difficulty: medium. Several starting points; Salo Sports Park, Pormestarinkatu 2, Salo, WGS84: 60° 22.821', 23° 08.210') or Kirjakkala, Hamarijärventie 62, Teijo, WGS84: 60° 16.366', 22° 59.544'**

There is a connection directly from the centre of Salo, to Teijo National Park and the ironworks villages. The half-marathon hiking trail is suitable for both hiking and mountain biking. However, the trail is fairly demanding for cyclists, as the trail also includes steep hills and paths with roots.

You can do the trail one-way, or divide it into shorter stages. For families with children, we recommend following the trail to the Helisnummi scouts' lean-to shelter, which is easily accessed with a pram from the nearest parking area.

## Halikonlahti Bay

**Bird trail, length: 3.1 km, Duration: one hour. Difficulty: easy. Place of departure: Satamakatu 69, Salo, WGS84: 60° 22.033', 23° 04.975'**

In Bay Halikonlahti, you can find a birdwatching tower, an accessible birdwatching platform and hidden huts. There are two routes in the area: an accessible trail and a bird trail. The accessible trail is suitable for use with wheelchairs or prams.

**Accessible route**

**Length: 1.9 km**

**Duration: 0.5 hours**

**Difficulty: demanding accessible**

**Place of departure: Satamakatu 49, Salo WGS84: 60° 22.066', 23° 05.432'**

### Vuohensaari

**Length: 0.6–2 km, duration: 0.5–1 hours. Difficulty: medium.**  
**Place of departure: Satamakatu 100, Salo, WGS84: 60° 21.816', 23° 03.937'**

Four kilometres from the centre of Salo is the rugged Vuohensaari Island, which is populated by primeval forests. Vuohensaari nature trails lead hikers to primeval forests, groves, coastal cliffs and historical sites. The nature trail consists of the Kreivi trail (0.9 kilometres) and the related Kippari trail and Torppari trail, the latter of which is suitable for prams.

The island's services also include a camping area, café, summer theatre, swimming place, mini golf course and playground.

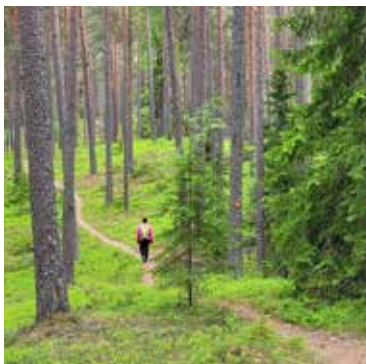

### Viitankruunu

**Length: 3.5 km, duration: one hour. Difficulty: medium.**  
**Place of departure: Merikulmantie 259, Salo, WGS84: 60° 21.557', 23° 05.384'**

The main attraction of the trail is the three impressive, bronze-age burial stones of Viitankruunu. For birdwatchers, there is a birdwatching platform on the shore, with a good view of the significant bird bay of Bay Halikonlahti. The lean-to shelter in the area offers a magnificent view of the bay. Please note that if you want to make a fire, you should always check the warnings and bring your own firewood with you.

The Omenalaakso trail (1.6 kilometres) marked in blue tours the easy terrain of the local nature and cycling roads. The Viitanpolku trail section (0.7 kilometres) along the shore of Viitankruunu is also suitable for prams.

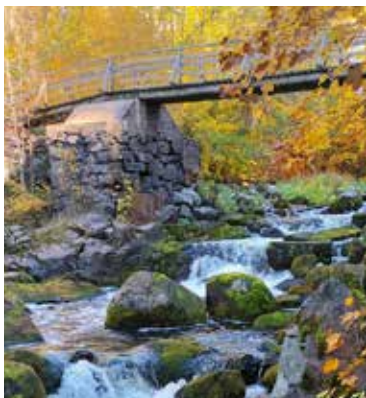

### Hyypärä

**Length: 1.8–2.3 km, duration: one hour. Difficulty: medium–demanding.**  
**Place of departure: Oinasjärventie 366, Kiikala, WGS84: 60° 27.216', 23° 38.016'**

The traces of the Ice Age are strongly visible in Hyypärä. Hyypäränharju, part of Salpausselkä, offers hikers plenty to see, as well as plenty of height differences. The enormous kettle holes and the mysterious Kultalähde spring fascinate hikers.

Kultalähde spring, found along the trails, is one of the most important springs in southern Finland. The spring, surrounded by endangered plants, must not be circled and fishing is prohibited there.

### Latokartanonkoski Rapids

**Length: 2.2 km, duration: 0.5–1 hours. Difficulty: medium.**  
**Place of departure: Hästöntie 140, Perniö, WGS84: 60° 07.816', 23° 09.357'**

Surging rapids, lush shore groves and interesting history. Latokartanonkoski is an excellent hiking destination for the whole family. The history of the Latokartano mill extends to the Middle Ages, and is part of a significant built cultural environment. The current mill ceased its operations in the 1960s.

The nature trail consists of the basic trail marked in yellow, and green dead ends. Although the nature trail is demanding in places and contains stairs, the trail is also suitable for walking with a pram up to the ruins of the mill.

## Sauli Niinistö Sports Park is an oasis at the heart of the city

Sauli Niinistö Sports Park is located approximately one kilometre from the city centre. There's plenty of room to move in the park on its nearly 100 hectares. The Sports Park, which is located right off the city centre, offers a wide range of areas for dozens of different sports and fitness activities, both indoor and outdoor.

In the Sports Park, you can skateboard, swim, ride horses, take up athletics, ice skate in the ice hall, golf, bowl, play tennis, padel, basketball or football, do a stair workout and ski (in the winter). On the other hand, spectators can enjoy league-level matches of futsal, basketball and volleyball. There are also outdoor fitness equipment and a family park in the area. The Pahkavuori disc golf course is within walking distance of the Sports Park.

There is a versatile swimming hall at the centre of the Sports Park. In addition to swimming pools, it has a 30-metre water slide, a cold pool and a diving platform. In front of the building, you can admire Pekka Jylhä's artwork, Joy, which is a gigantic and colourful beach ball.

**For more information about the Sports Park and other sports facilities in Salo, visit [www.salo.fi/liikunta](http://www.salo.fi/liikunta).**

## Go on a bike adventure around the Coastal Route

### Coastal Route

**Salo – Teijo Ironworks Villages – Kimitoön – Hanko – Raseborg – Salo (over 200 km)**

The Coastal Route offers idyllic ironworks and coastal villages, national parks, seascapes, island hopping and diverse countryside.

The village services have considered cyclists, and you go around the entire trail and spend your nights in real beds. Try the delicacies made by local restaurant vendors and get souvenirs from small shops.

### Small Coastal Route

**Salo – Halikko – Kimitoön – Teijo Ironworks Villages – Salo (approx. 90 km)**

The Small Coastal Route is an excellent option if you want to go around the entire route. A fit cyclist can cycle the circular trail from Salo via Kirjakkala, Teijo, Mathildedal, Kimitoön and Angelniemi in just one day. However, there is plenty to see on this route as well, and you should reserve time accordingly.

### Get to know the Coastal Route conveniently on a rental bike

Check out the network of bike rental services on the [Rannikkoreitti.fi](http://Rannikkoreitti.fi) website.

# Maritime Särkisalo

The sea, beaches, guest harbours and cliffs with gorgeous views and idyllic summer cafés and restaurants make Särkisalo the perfect holiday destination for anyone who loves to spend time in the archipelago. There is plenty to do and see until late autumn, when the traditional Baltic Herring Festival takes place.

**THE SOUTHERNMOST POINT OF SALO**, Särkisalo, is a popular place to be in the summer. The number of inhabitants increases fourfold during the summer, as those with summer cottages arrive and the harbours are filled with boats. Visitors can enjoy local delicacies on the terraces of summer cafés and restaurants in a beautiful nature scenery. Särkisalo is surrounded by the sea and the area has diverse tree species. Buildings painted with red ochre peeking out here and there are sure to catch your eye.

Särkisalo consists of a small strip of land and numerous islands – there are places worth visiting on all the bigger islands. Go on a day trip by car, boat, kayak or bicycle. You can also explore Särkisalo by foot. If you need a break, you can find Liars' Benches (Valehtelijan taukopenkit) built by the locals along nature trails in Särkisalo.

### Förby Marina

N60°05,7'/E22°51,8' Förby Marina is a sheltered and environmentally friendly Roope marina. Located along the Koillisväylä route, the harbour has, for example, a guest dock, a fuel station, toilets/shower, a summer café, water and waste management and a swimming area.

## Maritime Särkisalo

### Tiiranta

Tiiranta is the only restaurant in Särkisalo that is open all year round! The extensively renovated, beautiful wooden house stands in the charming surroundings of the guest harbour. A glazed terrace ensures comfort on rainy days. A fire table generates both atmosphere and heat. Delicious food, small savoury and sweet dishes, a fully licensed bar and a versatile programme make Tiiranta a maritime pearl for guests of all ages, and pets are also welcome here. Tiiranta also has a village shop, Veikkaus gambling and Posti post office services, a washing machine, shower, gas sales, and a water tap for tourists.

## Koillisväylä Route

Koillisväylä is a more relaxed route of calmer winds and smaller waves between Hangö and Airisto.

The fairway travels along the eastern side of Kemiönsaari island and passes the idyllic marinas of Bromarv, Förby, Mathildedal, Pargas, Villa Wolax, Hovirinta and Ruissalo.

The guest marina network has plenty of space throughout the boating season, and going ashore is easy.

#koillisväylä

## Delicacies for every taste

The countryside of Salo offers holidaymakers diverse, genuine experiences and delicious local foods. Food tourists should head to farms that sell locally produced food, where they can also experience a piece of the farm's everyday life in the quaint countryside. You can also enjoy tasty local food in the many cafés and restaurants that use high-quality local ingredients.

**SALO IS THE TREASURE TROVE OF LOCAL FOOD** and one of the largest agricultural cities in Finland. A significant proportion of Finnish bread grain is grown in large fields in the area. Pumpkins, berries and, of course, outdoor cucumbers are grown on outdoor garden farms, and their domestic production is concentrated in the Salo region. Farmers in Salo also grow special plants such as broad beans, sugar beet, spelt and caraway.

Together with Somero, Salo is Finland's largest producer of mutton, sheep's wool and sheepskins. You can buy a variety of responsibly produced meat from animal farms.

Fruit and berries are also grown in Salo: local apple groves produce jams, juices and especially cider. The Finnish genuine cider is made of unpasteurised 100% juice with natural fermentation methods, avoiding additives. Four out

of the fourteen Finnish farms producing genuine cider are located in Salo.

Read more about the farms and food routes:

**[Visitsalo.fi/lahiruoka](https://visitsalo.fi/lahiruoka)**

## The Cider Trail

The Salo Cider Trail introduces you to the world of genuine Finnish cider, different cider types, manufacturing methods and foods suitable for consumption with cider. On the trail, you can experience garden seasons from the intoxicating floral bloom of spring to autumnal apples, see different cider production methods at various production facilities, and meet with the people who make the ciders. You can buy cider directly from manufacturers or taste different types of cider during the trail. Along the trail, there are also shops with a good cider selection and restaurants that can recommend foods that are particularly well suited with certain types of ciders.

## Local food and countryside

### Lehmiranta

Lehmiranta is a cosy hotel and spa destination by Lake Lehmijärvi, between Teijo National Park and central Salo. The naturally beautiful setting allows holidaymakers to enjoy swimming in both the spa resort, and the clear Lake Lehmijärvi. After swimming, visitors can enjoy the gentle heat of the seashore sauna.

Lehmiranta organises recreational thematic vacations and hobby courses for groups and individuals alike. Travellers can participate in the hotel's versatile holiday programme.

In addition, the hotel-quality double rooms offer comfortable accommodation for summer guests and other travellers visiting the Salo region.

Lehmirannantie 12

www.lehmiranta.fi

### Varikattilanmäki nature trail

**Length: 2.6–3.2 km, duration: 1–2 hours. Difficulty: medium.**  
**Place of departure: Lehmirannantie 12, Kotalato, WGS84: 60° 17.899', 23° 05.108'**

Established in 1982, Varikattilanmäki Nature Reserve offers plenty to see: the rocky nature of Southwest Finland, its views and the historical "Russki Oven". The Ice Age has left its marks on the landscape, such as shingle ridges and erratic boulders.

The trail leading to Varikattilanmäki (3.2 km) is medium-level. In addition to cliffs, the diverse nature also includes peaty forests and mire woodlands. The Eero Trail (2.6 km) is a much easier outdoor trail than Varikattilankierros. Both routes depart from Lehmiranta.

The nearby Lake Lehmijärvi beach is a nice place for a refreshing swim on a hot day.

Lehmirannantie 121, 25170 Perniö,  
www.salo.fi/uimarannat.

### Katiskanmäki, Firapeli, Local Food Kiosk Pikantti

Organise an unforgettable party or an event for a larger crowd at Firapeli. Stay in the cosy rooms or the caravan area, or rent a cabin on the beach. Enjoy our smoke sauna and outdoor hot tub under the starry sky, or see if you dare to go ice-swimming. Our local food kiosk is always open and full of amazing produce. Stop by on your way!

## Historical Halikko

Halikko offers travellers a generous serving of culture, ancient history and modern-day delights from restaurant delicacies to design.

**DID YOU KNOW THAT HALIKKO** was an important trading and meeting place already during the Iron Age? The general understanding is that Vikings sailed to the coast of Halikko, as it was at the time, to trade around the area of modern-day Rikalanmäki. This view is supported by numerous archaeological findings and the Iron Age burial site of Rikalanmäki. Halikko's history contains all kinds of interesting things – if you want to know more, we recommend that you head to the Rikalanmäki ancient trail.

In addition to ancient history, Halikko offers a wide range of culture, manor life and modern high-quality products. The area has a variety of unique restaurants, idyllic cafés and manors and accommodation surrounded by beautiful nature. Visit Design Hill for home decor and design, and go to Wiurila, where you can find the wonderful manor buildings designed by C. L. Engel and a unique carriage museum.

If you're planning an autumn trip to Halikko, you should see it in October, when the Pumpkin Weeks create a great atmosphere and experiences in the area. The Pumpkin Park at the Rannikko garden in Halikko is at the centre of the Pumpkin Week activities, inviting visitors to admire thousands of grimacing jack-o'-lanterns.

**Design Hill**  
**Stop for a break in Halikko – On the motorway between Helsinki and Turku**

**Our store is the home of brands**  
 Our extensive collection of lifestyle items includes products from well-known Finnish and international brands for yourself or to give as a present, whether you are looking for new ideas, classics or just something that brings you joy.

**We are open**  
 on weekdays 9 a.m.–7 p.m.  
 Saturdays 10 a.m.–6 p.m.  
 Sundays noon–7 p.m.  
 You can find our holiday opening hours on our FB and IG pages.

**Cafe PetriS – rest stop full of flavours at Design Hill**

Cafe PetriS is a bright and relaxed meeting place where everything is built around quality. The counter display case contains cakes baked in the cafe's kitchen, freshly baked croissants, sandwichs and other fresh treats. For lunch, we serve baked potatoes, salads and our kitchen's own classics – everything is fresh and carefully made. Cafe PetriS offers clear flavours, house-made goods and an easygoing break by the motorway. Come for a visit!

+358 (0)40 647 2610, info@cafepetris.fi, www.cafepetris.fi

**PetriS Chocolate – chocolate shop**

Step in and dive into a world that combines rich aromas, sophisticated textures and bold flavours together perfectly. Each of our creations is carefully prepared by hand in small batches. We use high-quality chocolate and unique ingredients to create flavour pairings that will surprise and delight you. Each bite of our rich chocolate delicacies tells the story of passion, precision and creativity. We invite you to stop and enjoy our truly authentic and unforgettable chocolate. Experience the magic of chocolate at PetriS Chocolate.

+358 (0)40 845 9731, asiakaspalvelu@petris.fi, www.petris.fi

**Vaski Cider & Distillery – An unforgettable cider house and shop that was awarded as the culinary destination of the year**

At the Vaski cider house, you can watch and learn how local apples turn into internationally award-winning beverages. The cider exhibition delights the senses and introduces you to the world of real cider. You can also sample the house products on site or buy some to take home. In addition to the distillery's own produce, you can also buy other quality beverages when Design Hill is open. Please book tours and thematic group tastings in advance. Familiarise yourself with cider production in the cider house downstairs when the production is running.

### Memorable Wiurila

Wiurila offers a unique experience for visitors who want to learn about the manor life in Southwest Finland. Wiurila means food, overnight stays, meetings, parties, art exhibitions, golf, museum visits and unforgettable experiences.

Located in the magnificent agricultural centre, the restaurant is open during the summer season and available for booking all year round. The restaurant's magnificent banquet hall and conference facilities are suitable for a wide range of events.

At the home and horse carriage museums, you can explore the history of Wiurila and the manor life of the Armfelt family since the 19th century. The horse carriage museum houses vehicles owned by manors in the area from the 18th century onwards. Guided tours of the museums and the main building are arranged for groups all year round upon request.

Wiurila Summer's extensive exhibition of contemporary art in the agricultural centre and its surroundings is open in the summer. There is also a small and pleasant hotel in the agricultural centre's courtyard. Gorgeous roses are in bloom in the rose garden and the beautiful horses graze next to it.

Welcome to Wiurila!

## Vaisakko Nature Trail

**Length: 4.5 km, duration: 1–2 hours. Difficulty: easy–medium**  
**Place of departure: Palttatie 24, Halikko, WGS84: 60° 21.828', 23° 01.839'**

The Vaisakko grove, one of the most impressive groves in Finland, is an excellent day trip destination for all friends of nature. The nature reserve is at its most beautiful during the spring when the anemones bloom. In the summer, the dense foliage of the trees creates a rainforest-like atmosphere. The colourful autumn foliage of the grove is truly impressive.

Vaisakko's history of crofts is still visible in the heart of the grove. There have been crofting settlements in Vaisakko since the 18th century until 1959.

The Vaisakko Nature Trail consists of an easily accessible gravelled trail, which is also suitable for prams. There is also a spring along this section. The nature reserve starts with narrow narrow duckboards. The grove has a trail that is about 1.5 kilometres long, and which includes stairs and height differences. The Vaisakko cliffs with its impressive seascape offer a perfect place for a picnic.

## Rikalanmäki ancient trails

**Length: 2.5 km, duration: one hour. Difficulty: mostly easy.**  
**Place of departure: Rikalantie 77, Halikko, WGS84: 60° 23.468', 23° 03.644'**

Rikalanmäki's ancient trails offer interesting history and diverse plant species. The history of Rikalanmäki extends up to 4,000 years ago, when the current hill was an island in the sea.

Rikalanmäki was an important hub of trade. The Iron Age finds, as well as the finds that indicate the locations of ancient burial grounds and cremation cemeteries, tell of a long history of habitation in the area. Linnämäki, on the other hand, housed an ancient castle that provided a good defensive position in the late Iron Age.

Rikalanmäki's ancient trails consist of the ancient trails of Rikalanmäki and Linnämäki, and a connecting route between them. The trail is easy, with the exception of the steep trail leading to the top of Linnämäki. Rikala Krouvi offers restaurant and catering services in the area. Rikalanmäki also has the Theatre Provinssi summer theatre.

## Memorable parties in Salo

Old noble manors, adaptable party venues and high-quality restaurant services. Salo is a great place to organise meetings, parties and large-scale events.

**WOULD YOU LIKE TO ORGANISE** an event that is a smooth experience for your guests? Or do you dream of hosting a party in an environment that is exceptional in some way? In that case, you should turn your eyes to Salo.

The various venues in the region – manors, ironworks buildings, farm buildings, and villas – ensure that there is always a perfect venue for weddings, family gatherings and smaller meetings alike. There are also several churches near the party venues, and plenty of accommodation options.

Salo offers a wide range of venues for larger and smaller groups, in urban and rural locations, for a work community and party guests. Explore the options – here you'll find everything!

**Wonderful parties and special meeting and theme days!**

## Swap an expensive life for a rich one

Why not stay with us for longer? Salo is a city of many opportunities that attracts new residents and companies.

**AS A SALO RESIDENT**, you can get everything – time for the family, the close proximity of magnificent nature and an active life full of opportunities.

The cost of living is clearly more affordable in Salo than in the Helsinki metropolitan area, Turku or Tampere. Versatile services ensure that you get value for money not only with square metres but also with costs related to hobbies and other services.

Salo's location along the Turku–Helsinki railway and route 1 means excellent connections for commuting, for example. Salo offers a wide range of living environments from busy urban centres to smaller villages, from suburbs to countryside.

New and interesting construction, old valuable buildings and ambitious development projects in Salo will also be introduced at the 2028 Housing Fair.

SALO 2028

## New forms of urban living along the river

**2028**, Salo will show the way for future housing when the Housing Fair takes over the city – or more accurately, the city takes over the fair. Instead of having one unified exhibition area as usual, the properties are located in different parts of the city centre, brightening up the riverbank scenery of River Salonjoki.

“We are pioneers in this concept. We will not build our fair on a field or in a forest. Instead, we will complement the existing urban structure and services, such as schools and early education centres,” says **Mervi Lehto**, Project Manager of the Salo Housing Fair.

**THE THEMES OF THE FAIR** emphasise sustainable infill development, circular economy and communality. The fair will showcase many types of housing from single-family houses to modern town houses and blocks of flats. There will also be interesting renovation projects, such as giving a new life to an old wooden house and early education centre.

Fair visitors will be able to move around in an easy and fun way: they can take the fair bus to move between properties conveniently, and there are even plans of bringing a river ferry that would offer a new perspective to the city.

### **MERVI LEHTO**

praises the Salo Marketplace and Evening Market: A legendary meeting place that is worthy of its nationwide reputation.

”

## Why move to Salo?

Salo is a city designed for people where everyday life is smooth and services are close. You can switch an expensive life to a rich one here: more affordable housing, close to nature and amazing opportunities for hobbies.

# Relocate to Salo

Would you like to get close to agricultural side streams and extensive biomasses? Located in Southern Finland, Salo offers easy access to agricultural side streams that can be transformed into new products and profitable business.

Welcome to Lounapuisto circular economy park, which has an operational eco-power plant Lounavoima that turns non-recyclable municipal waste into local energy while also providing an important testing environment for new innovations.

The area offers a broad and steady flow of circular-economy materials that can be used in industrial production, as it is surrounded by Finland's largest agricultural biomass area – over 54,000 hectares producing more than 500,000 tonnes of applicable side streams – a developing biogas production and distribution network, and household waste generated by approximately 2.5 million residents within a two-hour radius.
